PATTERN PROFILE

MOTIVO MODERNO

PCRT MM500: The Julietta (Herringbone)

Patterned Concrete®'s PCRT MM500 from the Motivo Moderno series, creates a herringbone brick paving pattern with a subtle texturing. This unique design by Patterned Concrete® creates a modern and sleek decorative concrete finish. The MM500 can be placed on a 45 degree angle to create another unique look. The light texturing finish of PCRT MM500 delivers an authentic, natural appearance that complements a wide range of designs. The paving brick in MM500 is also equipped with a soldier course stamp to create a unique border design in a different color brick to accent any area. Specify PCRT MM500 for a modern paving design in a herringbone format.
